This Ice Box Saves You Money

Big ice bills indicate a poorly constructed ice-box. More than that, they indicate that unless you continually feed ice, you waste money in food and risk the health of the family by not properly protecting the food in warm weather.

The ice-boxes we will show you are built to last for years and give perfect service. Their construction makes the ice last longer, and a low temperature is maintained in the food chambers constantly. They actually save you their cost many times over.

In connection with the children's day exercises at the First Presbyterian church yesterday, two children were baptized. At the Congregational church, too, an interesting program of children's day exercises was carried out and appropriate sermons were preached by both pastors.

Odd Fellows marched to the First Baptist church to listen to an excellent sermon by the pastor, Rev. B. J. Lehigh, who spoke on the topic, "Success and What Leads to It." Members of Canton Vinton, as well as the subordinate lodges, were in uniform, and a delegation from Bright Star Rebekah lodge accompanied the Odd Fellows to the church.

Torrential showers from a sky that must be over-weighed by trying to follow the weather man in his dizzy bid for a rain record wrought havoc with hill streets in Barre over night, and early this morning employees of the street department found themselves hard put to it to get the walks in passable condition for pedestrians. At 9 o'clock last night there was a heavy shower that subsided into a steady rain, only to reach the proportions of a deluge around midnight. From that hour until 3 o'clock this morning, there was a heavy downpour. Street laborers were up betimes and in most places early pedestrians found that patches had been laid over great holes gullied out by the water.

The rain played to empty bleachers in both ends of the city Saturday, although each of Barre's semi-professional teams had attractive baseball cards arranged for the week. At the south-end grounds, the Barre A. C. and Goddard seminary players did not take the trouble to appear on the field, as the rain of the early afternoon precluded the possibility of playing. Not so with the pastimers who gathered at the Berlin street ball yard. There the Italian A. C. and the Green Mountain Athletics from Burlington were so intent upon playing that nothing short of the torrent that began around 3:30 o'clock could persuade them to abandon the program. A small crowd had assembled when it was decided not to play. Twice within a fortnight, the Green Mountain Athletics have had their game with the Italians postponed.

Yesterday the Intercity Motor Cycle club took a run down to White River Junction to meet the Worcester team that were on an endurance run from Worcester to Derby Line and return. The Worcester team was on its return from Derby Line when the Intercity club met them at White River Junction. Out of the 37 that started, there was only one to complete the run beyond the Junction and this was not a perfect score although he was on time, this being Baker, an Indian. Harley Davidson was the only team to complete the run beyond the Junction. The Intercity team reported a very successful run down and back, did not meet with very bad roads on account of the rains, any of the way. While there are about 15 in the club, only seven made the trip because the weather looked too threatening in the early morning when the start was made.
